- CLT is a comprehensive training course focusing on CFIA regulations, transport laws, livestock handling, animal and handler safety and accident prevention. It is species specific and covers beef & dairy, hogs, horses, sheep and poultry
- CLT content and delivery was developed with input from industry advisors (producers, truckers, packers, researchers, government enforcement, and industry associations).
- Certification has become mandatory for employment with some trucking companies, transporting into certain feedlots, packing plants and for other industry programs. It is quickly becoming a national standard.
